To Whom It May Concern:

RE: **Daniel K. DOB: 07/22/1974**

Mr. K. has idiopathic pulmonary fibrosis diagnosed in 2023 and is on continuous supplemental oxygen. Due to this condition he is unable to work or participate in job training or volunteer activities. His condition significantly impairs his ability to meet any work requirement, and I expect this to continue for at least 12 months.

Sincerely,

Dr. Priya Raman
